

TMS ALGARVE 2022

Sustainability Challenges in Tourism, Hospitality and Management

Thematic Session: **Circular Economy**

This track aims to cover aspects related to economic processes stepping away from linear forms of production and focusing on sustainable goods or procedures that aim to avoid waste. Topics covering this track may include, but are not limited to:

The Circular Economy in Tourism and Hospitality

- Blue economy
- Green economy
- Waste valorization solutions
- Use of renewable energy and materials
- Sustainability concepts and developments
- Solutions to maximize material lifecycles
- Solutions to tackle, minimize or eliminate waste and pollution
- The Circular Economy and new forms of production and consumption
- Review articles, theoretical, and quantitative studies are welcome

Track Director:

Jorge Ramos is an integrated researcher of the Research Centre for Tourism, Sustainability and Well-being (CinTurs) at the University of Algarve, Portugal. He has worked on socioeconomics related to coastal issues, including ecotourism. His research interests include aspects related to ecotourism, stakeholder analysis, salt pans, artificial reefs, among other areas. He holds a PhD in Fisheries Economics and Management, a PgC in Social Research Methods, a MSc in Fisheries Economics (University of Portsmouth, UK) and a graduate degree in Marine Biology and Fisheries (University of Algarve, Portugal). <https://orcid.org/0000-0002-5115-7919>
