

TMS ALGARVE 2022

Sustainability Challenges in Tourism, Hospitality and Management

Thematic Session: **Tourism Economics**

This track aims to cover aspects related to tourism economics (energy, environment, human capital, impacts, water resources...) on both macro and micro levels. Topics within this track are related, but not limited, to:

- Economic development and sustainability
- Energy and water consumption in the tourism sector
- Human capital & Talent management in the tourism sector
- Impact of tourism activities on the environment
- Public policy and sustainability
- Socioeconomic impacts of tourism
- The green economy
- Applied economics

Track Director:

José Luis Sánchez-Ollero holds a PhD in Applied Economics. He is a Full Professor at the Department of Applied Economics at the University of Malaga, Spain. He has been teaching for many years at the Faculty of Tourism of the University of Malaga, which is a pioneer centre for tourism university studies in Spain. His current research interests are focused on the effects that tourism has on the environment and the quality of life of residents in tourist areas, as well as how to reduce the negative impacts of tourist activity. <https://orcid.org/0000-0003-0834-8493>

Acknowledgement: This special session is supported by the Asociación de Investigadores en Turismo, Economía y Medio Ambiente (Association of Researchers in Tourism, Economy and Environment)
